6. Read:-Letter No.10292-9/L.B.301-12 dated 26th June 1913. from the Secretary to the Government of Mysore Genl. and Rev.Departments, inviting attention to -- Representative Assembly subject No.234 of 1912, regarding the proposal to appoint an Assistant Engineer to supervise District Fund works and calling for a suitable scheme in the matter in consultation with the -- District Board

Resolution.

It ~~is~~ was urged that the Board is at present contributing about nine to ten thousand rupees to the Public Works Department to meet the establishment, tools and plant charges for carrying out the works of the Board and that out of the said sum, the Board can as well have their own P.W.Officer of the status of an Assistant Engineer with a subordinate officer of the grade of a sub-overseer for each Taluk, to ensure thorough efficiency and prompt execution of works. The point was also raised whether the minor maramat Tank works of the District may not also be added on to the same agency under the scheme and the Tank Inspectors absorbed. After much discussion it was agreed that the proposed scheme of amalgamating the District Board and Maramat works under one agency be commended to the -- Government for sanction, The details of the scheme being worked up after the scheme receives the sanction of Government.

Office of the President, District Board,
Tumkur District,
Dated, Tumkur, the 6th August 1913.

From

B. J. Kumaraswami Naik, Esq., B. A.,
President. District Board,
Tumkur District.

To

H. R. Srinivasiengar, Esq., M. A.,
Secretary to the Government of His Highness the
Maharaja of Mysore, General & Revenue Departments,
B A N G A L O R E.

Sir,

In reply to your letter No. 10292-9/L.B.301-12 dated 26th June 1913 calling for a suitable scheme in the matter of the appointment of an Assistant Engineer to supervise District Fund Works, I have the honour to forward herewith a copy of the resolution of the Board passed at its meeting held on the 29th ultimo, on the subject in question.

The Board is anxious to have the services of an Assistant Engineer to supervise the District Fund Works and thus to push on the works more vigorously and efficiently than hitherto. The Amildars amidst their multifarious duties may not find time to check the works accurately and to give the necessary skilled directions during the execution of the work They have to depend mostly on the Sanitary Inspectors. The appointment of an Assistant Engineer may therefore be given a fair trial.

But as the funds of the Board are meagre. the request of the Board to have the services of an Officer free of cost to them is fair. He may, also, be put in charge of the District Maramat works.

Like the District Overseer who is at present supervising the Maramat works under the Deputy Commissioner but who is paid out of the funds of the Department of Public Works, the proposed Assistant Engineer should be placed under the President, District Board.

I have the honour to be,

Sir,

Your most obedient servant,

Assistant Commissioner,
For President, absent from Station.

(1) Govt. Order no. 10292-9/L.B.301-12 dated 26th June 1913 inviting attention of Representative Assembly Subject no. 234 of 1912 regarding the proposal to appoint an Assistant Engineer for Supervising the District Fund Works.
(2). The Summary of discussion on the Subject from the Proceedings of the Representative Assembly of 1912.

Resolved that the appointment of an Assistant Engineer to supervise the execution of the District Fund works is necessary but that the Board is of opinion that as in the case of the District Overseer who while Supervising the District Main. mat works is paid from Public Works Department Funds, so the Assistant Engineer if appointed should also be paid from the same funds as the finances of the Board are quite inadequate to maintain such a highly paid Official.

From

P.F. Bowring, Esquire.,
Offg. President, Kolar District Board

To,

K.R. Srinivasiengar, Esquire., M.A.
Secretary to the Government of Mysore,
General and Revenue Departments,
Bangalore.

Sir

With reference to your letter No.10292-9/ L.B.301-12, dated 26th June 1913 requesting me to forward a suitable scheme, in consultation with the District Board, re the proposal to appoint an Assistant Engineer to supervise the District Fund works, I have the honor to forward herewith a copy of the memorandum furnished by the Executive Engineer, Kolar Division, on the said proposal, and to state as follows:-

2. The various aspects of the proposal under reply were discussed at great length by the District Board, at their Meeting held on the 20th ultimo, and it was resolved unanimously that the appointment of an Assistant Engineer to supervise the District Fund, Municipal and Maramat works of the District was highly desirable and necessary, and that a scheme, on the lines proposed by the Executive Engineer, Kolar Division, may be submitted for favourable consideration of Government. A copy of the Board's resolution

(25

is herein enclosed for kind perusal.

3. The average annual outlay on District and Municipal Fund works, calculated on the amounts expended from 1904-05 to 1912-13, amounts to Rs 75,000 in round figures, as detailed in the margin. But as this annual outlay is considered insufficient to engage the full time of the Assistant Engineer and his staff all round the year, it is proposed to entrust the staff with the Maramat works of the District also. The aggregate expenditure under these three heads viz, District, Municipal and Maramat Funds will work out to about Rs 1,03,000 a year; and taking into consideration the expected further allotment for Maramat works in this District under Government Proceedings No.2617-8/L.R.413-10-6 dated 14th November 1912, the total grant for the District from Provincial, District and Municipal Funds may safely be put down at Rs 1,20,000 a year.

District Fund works	
Public works carried out by P.W.agency.	Rs 39,479
Public works carried out by Civil Departments.	Rs 16,901
Municipal works.	
Public works carried out by Civil Department.	Rs 17,942
Total	Rs 74,322 or Rs 75,000 in round figures.

4. A major portion of these works are being carried out by the Amildars at present, assisted by the Sanitary and Tank Inspectors. As none of them have the required training in the technical part of the work, the quality of the work turned out by the Revenue agency is not up to the desired standard. Further, the Amildars with their multifarious duties cannot devote sufficient time to it, and consequently,

there is a lack of efficient supervision and systematic work throughout the year and a large portion of the annual allotments is allowed to lapse, while many petty works are being dragged on for years together as incomplete works.

5. To remedy these defects, I would strongly recommend the appointment of an Assistant Engineer, who should work under the direct orders of the Deputy Commissioner, with an adequate staff of technically trained men to be in charge of all the District Fund, Municipal and Maramat works of the District. The sanction of such a staff would enable the Deputy Commissioner to insist upon effective supervision of all works at frequent intervals and satisfactory execution of the same in reasonable time. Further, there would be opportunity to show marked improvements in the restoration and repairs of minor tanks, maintenance of District and Municipal Fund roads, and in carrying out drainage and water supply schemes in several parts of the District with the help of this whole time P.W. staff. The Assistant Engineer would also be a great source of help in drawing up drainage and water supply schemes for large Municipal towns and carry them out in the course of a few years, as funds are made available.

6. I think, that the scale of establishment proposed by the Executive Engineer, Kolar Division, in Statement B. attached to his Memorandum, would be sufficient, with the exclusion of the Range Cashier on Rs 40 per mensem proposed therein, as the issue of cheques on work bills ~~sanctioned~~ submitted by the Assistant

(7

engineer would be attended to in the respective Departments of the Deputy Commissioner's Office as heretofore. The Assistant Engineer would have a draughtsman and a Sub Overseer to check plans and estimates and two clerks to attend to ~~his~~ the clerical work of his Office, which, I am of opinion, would be quite sufficient to manage his office work. The cost of the proposed establishment would be Rs 14,520 a year, resulting in a percentage of 12.1 on the estimated annual outlay of Rs 1,20,000 under Provincial, District and Municipal Funds, as against 17½ per cent now charged by the Public works Department on the works of these Departments executed under their agency. The proposed establishment charges would appear very moderate when the resultant advantages that would accrue to the minor public works of the District, - whose maintenance in an efficient condition is of paramount importance to the prosperity and well-being of the ryot population - are taken into consideration.

7. If this proposal be approved of by Government, the present staff of Tank Inspectors would be gradually eliminated and a better staff of Sub Overseers appointed in their stead.

8. The District Board is also of opinion that substantial reduction in the number of Sanitary Inspectors of the District, would also be feasible, as enough work could not be found for all these Sanitary Inspectors when relieved of this responsible portion of their work. This, however, will form the subject of a separate communication if Government will sanction the proposed scheme.

9. With these remarks, I submit the scheme to Government with the hope that it will be favourably considered.

I have the honor to be,

Sir,

Your most obedient servant,

President

Kolar District Board.

Encld to D 30 1-12 & 8.

VI

Memorandum by V. Aiyaswami Iver. Esquire., B.A., B.C.E. Executive Engineer, Kolar Division, on the proposal to appoint an Assistant Engineer to supervise District Fund and Maramat works in the Kolar District.

The District Fund and the Maramat works are at present partly executed by the Public Works Department and partly by the Revenue Department.

2. According to the rules in force for the Minor tank Restoration scheme, all estimates of Rs 500 and above for restoration and repairs of minor tanks are checked and sanctioned by the Superintending Engineer, and those below Rs 500 are sanctioned by the Deputy Commissioner. and these works are supervised during execution by the Revenue Department. and in some cases by the Public Works Department. In addition to this, the formation and maintenance of important District Fund roads for which the mileage grants are over and above Rs 50, maintenance of Travellers' Bungalows and construction of Musafirkhanas and other important works pertaining to the District and Municipal Funds are also undertaken by the Public Works Department. Besides this, sinking of wells, construction of Musafirkhanas, formation and maintenance of roads in the different unions, construction of cattle pounds and petty repairs to tunnels &c are attended to by the staff attached to the Revenue Department, District Board and the Municipalities.

3. The works referred to in para 2 above may be briefly classified under the following heads:-

1. A. Public works executed by P.W.D.

2. B Civil Department.

3. Minor tank Restoration.

The outlay incurred under the heads 1 & 2 is met from District Funds and that under 3 from Provincial Funds. The average outlay incurred every year under "A. Public works executed by the P.W.D. is Rs 39.479. that under "B.Public works executed by the Civil Department" is Rs 16,901, and that under "Minor tank Restoration scheme" is Rs 27,998. The average outlay incurred under all 3 heads amounts to Rs 84,378 or Rs 85.000 nearly every year. Vide statement A enclosed.

4. In addition to the above, the outlay incurred on works pertaining to Municipal funds should also be taken into account. This figure may be taken roughly to be not less than Rs 5,000 per year for the whole District. According to Government Order No.2617-8/L.R. 413-10-6 dated 14-11-12, the annual allotment for the Province for the restoration of the Minor tanks has been raised from one lakh of rupees to two lakhs during the next three years, and it is also stated therein that the amount would be raised even to 2½ or 3 lakhs per annum. The Kolar District has got the largest number of minor tanks to be attended to, and major portion of the allotment will have to be worked out in this District. A sum of Rs 30,000 at least may be expected to be granted extra to this District on this account. The total grant for the District from Provincial, District and Municipal Funds will therefore be Rs 1,20,000.

(31)

5 Of this sum of Rs 1.20.000. about Rs 40.000 is worked out by the P.W.D. and the balance of Rs 80,000 will have to be worked out through the agency of the Revenue Department.

6. The works carried out by the Revenue Department are at present supervised by the Amildars who have multifarious works to attend to. The present staff of tank Inspectors do not mostly consist of technically trained men. The clerical staff do not contain men qualifird by passing the Account test. The supervision and quality of work turned out should therefore be naturally poor, in spite of the best efforts rendered by the Revenue Officers. There are some P.W.D. Divisions in the Province which have only an annual grant of about a lakh and a half rupees. The amount now spent by the agency of the Revenue Department alone is Rs 80,000 and if the District Fund works now being done by P.W.D. be also transferred to the Revenue Department, the annual grant will be 1,20,000 rupees. Under these circumstances, it seems in my opinion, very necessary to have an establishment of a P.W.D. Range though not necessary to have the establishment of a regular P.W. Division. A good staff of technically trained men with an Assistant Engineer at the head should be employed in the interest of public money. This proposal if brought into force, would not only secure good work combined with economy, but would also relieve the burden on the part of the Revenue Officers to a great extent.

7.

Statement B. showing the scale of establishment proposed to be employed for the effective supervision of the District Fund and the Maramat works is herewith attached for information. An Assistant Engineer on a pay of Rs 200 per mensem is provided for therein. He will be in charge of the District works under the direct orders of the Deputy Commissioner. In him should be vested the management of all works in the District. For the preparation and checking of plans and estimates, it is proposed to attach a Draughtsman on Rs 30 per mensem to the Assistant Engineer's Office, The Assistant Engineer should arrange for the details of their construction, superintend the works and the accounts.

To facilitate effective, frequent and timely supervision and complete the chain of responsibility, 2 Sub Divisions may be formed. 2 Overseers are therefore provided, one on Rs 80 and the other on Rs 60 per mensem. The Overseer on Rs 80 will supervise the works in 6 Taluks, viz, Kolar, Bowringpet, Malur, Mulbagal, Srinivaspur and Chintamani. The Overseer on Rs 60 will supervise the works in the other 5 taluks of the District. One clerk on Rs 15 and one peon on Rs 6 are provided for each of the Overseers.

The rest of the establishment consists of the tank Inspectors and Sub Overseers and Office establishment. With a view to have the technically trained men employed as vacancies occur in the existing establishment of tank Inspectors, provision for Sub Overseers has also been made. The proposed Office establishment

[illegible] ploying the small [illegible] ...
...ced to employ for the [illegible] ...
...the District Road and the [illegible] ...
...stroyed for information. [illegible] ...
...ay be. £50 per month is provided for the Staff. No ...
...in charge of the District Works under the direct or-
...ders of the Deputy Commissioner. He will be ...
...the management of all works in the District, for the
preparation and checking of plans and estimates, it is
proposed to attach a Draughtsman on Rs. 30 per mensem to
the Assistant Engineer's Office. The Assistant Engineer
should arrange for the despatch of their construction,
supervision and the works and the accounts.

To facilitate effective, frequent and timely
supervision and complete the chain of responsibility,
2 Sub Divisions may be formed. 2 Overseers are there-
fore provided, one on Rs. 60 and the other on Rs. 50 per
mensem. The Overseer on Rs. 80 will supervise the works
in 6 Talukas, viz. Kolar, Bowringpet, Malur, Chikbal-
lapur and Chintamani. The Overseer on Rs. 60 will
supervise the works in the other 5 talukas of the Distr-
ict. One clerk on Rs. 15 and one peon on Rs. 6 are provided
for each of the Overseers.

The rest of the establishment consists of the
tank Inspectors and Sub Overseers and Office establish-
ment. With a view to have the technically trained men
employed as vacancies occur in the existing establish-
ment of tank Inspectors, provision for Sub Overseers
has also been made. The proposed Office establishment

is only that given for an ordinary P.W. range.

8. The cost of the above scale works up to Rs 15,000 against the probable increased grant of Rs 1,20,000 for works, resulting in a percentage of 12.5. If the grant is not increased from Rs 90,000 to Rs 1,20,000 by Government, one Overseer alone may be given to the Assistant Engineer for assistance and when grant is increased the other Overseer may be appointed. If only one Overseer be attached instead of two, establishment charges will come to 13,400 rupees, which is the same as at present.

9. The cost of the present establishment charges is Rs 13,400 as shown in the statement B. The extra cost will therefore be about Rs 1,600. The Government in their Order No.2617-8/L.R. 413-106 dated 14-11-12 have ordered the appointment of a better class of officers for supervision of works executed by the Revenue agency. The additional cost on this account will not however be less than Rs 1,600.

10. The above proposal may be tentatively adopted for one or two years, if the same be approved by the District Board.

From

K.Krishna Iyer, Esquire,

President, District Board, Kadur District.

To

K.R.Sreenivasa Iyengar, Esquire, M.A

Secretary to Government, General and Revenue

Departments in Mysore, Bangalore.

Sir,

With reference to your letter No. 10292-9/Lb.301-12 dated 26th June 1913 inviting attention to Dasara Representative Assembly Subject No. 234 of 1912 regarding the proposal to appo-int an Assistant Engineer to supervise District Fund Works and - calling for a suitable Scheme in the matter, in consultation with the District Board, I have the honor to state that the constructi-on and repairs of roads in other than Unions, construction of tun-nels, improvement of and repairs to 3rd class Traveller's Bunglows are at present executed through the agency of the Public Works Depart-ment, while well works, ordinary repairs to roads and other works in Unions are attended to by the Sanitary or Assistant Sanitary Inspec-tors under the supervision of the Amildars. For the execution of Muz-roi works, there is, at present, no specially deputed professional --

professional agency and the works are being executed by the agency locally available, Tank Inspector, Sanitary or Assistant Sanitary Inspector, or Sheikdar which arrangement, in my opinion, cannot be said to ensure thorough efficiency and prompt execution of Muz-roi works. To secure efficient control over District Fund, Muz-roi, and Maramat works, the appointment of a wholetime officer with Engineering qualifications as an Assistant to the Deputy Com-missioner is highly expedient.

The revision of the Maramat establishment employed in con-nection with the minor Tanks Restoration scheme has already received the general approval of Government in their Proceedings, No. R2617-8/Lr.413-10-6 dated 14-11-1912. It will conduce to grea-ter economy if the works relating to District Funds., Maramat. and Muzroi are entrusted to him.

To assist him, a subordinate officer of the grade of a sub overseer may be appointed to each Taluk and the existing tank Inspectors absorbed.

The District Board having carefully considered the matter at their meeting held on 22-8-1913 resolved that a suitable schem be submitted to Government as the Board were of the unanimous op-inion that the appointment of an Assistant Engineer should be made in the interests of the maintenance of the District Fund and other works.

A copy of the Boards resolution is herein enclosed for ---

Commissioner and placed in charge of the above mentioned branches of the Deputy Commissioner's office and of all the works in the -- District. His appointment should not carry a pay of anything less than Rs. 250 or 300 Rupees a month.

As regards the establishment required for such an officer, I would propose as follows:

His office establishment.		Out-door establishment.	
One Cashier .....on Rs.30-0-0		5 Sub Overseers for each Taluk at Rs 30/- each.....	... 150-0-0
One Draftsman ....on Rs.35-0-0		Their Travelling allowance	... 100-0-0
2 Peons: One on Rs.7 / One on Rs.6	13-0-0	5 Peons at Rs. 7 each	... 35-0-0
Contingency Rs.20-0-0		Other charges	25-0-0
Total per mensem ..Rs.98-0-0		Total per month Rs.....310	
or Rs.1176 per annuam.		or Rs.3720 per annum.	

The working of the scheme sketched above may perhaps entail a little extra expenditure; But this in my opinion, may be considered as amply repaid by the more efficient and timely supervision over works, better class of work turned out, and the probable savings resulting therefrom and in the shape of ~~recurring~~ recurring annual charges. Another manifest advantage will be that the Public Works Department having been relieved of --- District Fund works, the legitimate works of that Department (public works) will receive greater and constant attention and better results may be achieved therefrom.

The existing Sanitary or Assistant Sanitary Inspectors, will, without prejudice to the work of sanitation continue as heretofore

No 660/2

Office of the President, District Board of Mysore.

Dated, Mysore 3rd March 1915.

From LB 301-12/2

A.Subramanya Iyer, Esquire., B.A.,
President,
District Board of Mysore,

To

D.M.Narasinga Rao. Esquire.. B.A.. B.L..
Secretary to the Government of His
Highness the Maharaja of Mysore,
General and Revenue Departments,

Sir,

With reference to your letter No 10292-9/L.B.301-12 dated 26th June 1913 calling for the opinion of the District Board in the matter of appointing an Assistant Engineer for supervising the District Fund Works as represented in subject No 234 of the Dasara Representative Assembly Proceedings of 1912, I have the honor to state that a Sub Committee was appointed for discussing the question and that their report was placed before the District Board when they met on 20th February 15. It was resolved that the scheme as formulated by the Sub Committee be approved and recommended to Government for sanction. The Sub Committee propose the entertainment of a staff costing annually a sum of Rs 19.136/- which is equal to the expenditure now incurred on account of establishment charges both under "A" & "B" Public Works. The proposed scheme will relieve the Public Works Department of their charge of the District Fund Works and it is expected that it will ensure better efficiency in the supervision and prompt execution of District Fund Works avoiding heavy lapses.

A copy of the Sub Committee's report together with an extract from the proceedings of the District Board is herein enclosed for the orders of Government.

I have the honor to be,
Sir,
Your most obedient Servant,

Assistant Commissioner,
For President,
District Board of Mysore,
(Absent from station)

Report of the SubCommittee in the matter of appointing an Assistant Engineer to supervise District Fund Works in the District.

The under mentioned members of the above Sub-Committee met at Mysore on 30-1-1915 ad discussed the above subject. With their concurrance, I beg to state the following.--

The Public Works whose cost is met from District Funds are divided into classes. "A. Public Works executed by the Public Works Department" and "B. Public Works executed by the Revenue Department." The cost of the establishment under "A.Public Works" is paid at the rate of 17½ per cent on the total outlay and the amount debited to District Funds for this purpose during 1913-14 amounted to Rs. 11,442/-.

The entire cost of the establishment under "B. Public Works" is in the first instance debited to District Funds and the quota of contribution from Provincial and Municipal Funds then recovered and credited to District Funds. The existing supervising staff consists of Sanitary and Assistant Sanitary Inspectors, and their cost during 1913-14 amounted to ₹ 7822.

The total cost of establishment under the above two heads during 1913-14 was thus ₹ 19,264.

After considering the present and prospective expenditure and holding a lengthy discussion, it was unanimously resolved by the Committee that it was very advantageous to have a separate establishment similar to that existing in Madras Presidency and to consist of the following D.P.W. officers exclusively in charge of Public Works, both District and Municipal Funds.

Details of the Establishment. Officers.	No	Rate of pay per month. ₹ as p	Annual cost. ₹ as P.
District Engineer	1	200 0 0	2,400 0 0
Sub Division Officers	4	60 0 0	2,880 0 0
Sub Overseers	13	30 0 0 Plus 15/-	7,020 0 0

Establishment (1) District Engineer.

Draughtsman	1	30 0 0	360 0 0
Clerks	3	75 0 0	900 0 0

(1 clerk on ₹ 30/--: 1 clerk on ₹ 25/-: 1 clerk on ₹ 20.)

peons	3	20	0	0	240	0	0.

(2) Sub Division Officers.

Clerks	4	25	0	0	1,200	0	0
Peons	4	28	0	0	336	0	0

Other items.

Travelling allowance to:--			
1. District Engineer and his Establishment	L.S.	1200	0 0
2. Sub Division Officers and their -do-		2000	0 0
Contingencies &c.		600	0 0
Total Annual Cost		19,136	0 0

The above newly proposed District Board establishment will be in charge of the said 2 classes of works A & B and the Public Works Department will be proportionately relieved of their responsibility in carrying out these works and thereby afford time to bestow better attention on works requiring their personal supervision in their department proper.

The appointment of 4 sub Division Officers for the marginally noted 4 Sub Divisions is a sin qua non in as much as the District Engineer will not be able to cope with and satisfactorily

II Nanjangud Chamarajanagar T. Narasipur Gundlupet	
III Seringapatam Krishnarajpet Mandya Nagamangala	
IV Malavally French Rocks Sub Taluk.	

supervise the heavy work of the whole District. It was therefore considered very necessary that he should be given assistants of proper status and rank to ensure efficiency in the supervision and prompt execution work avoiding heavy lapses. It was resolved that the above staff should be under the direct control of

No.240 Office of the President of the District Board, 153

Dated Shimoga, 16th April 1914.

D6552 LB 301-12 (81 13)

From

K. Matthan, Esquire, B.A.,

President of the District Board,

S h i m o g a.

To

D.M. Narasinga Rao, Esquire, B.A., B.L.,

OFFG. Secretary to the Government of Mysore,

General and Revenue Departments,

B A N G A L O R E.

Sir,

In continuation of this office letter No. 104 dated the 22nd October 1913 regarding the proposal to appoint an Assistant Engineer to supervise District Fund Works, I have the honour to state that as the Sub Committee formed to draw up a memorandum on the subject was not able to do so on account of the absence of the members, the subject was considered by the District Board at its meeting held on the 28th May 1914 when a resolution was recorded that the District Board is prepared to undertake all works now executed for them by the Public Works Department in this District for a term of two years, as a tentative measure, on the entertainment of the staff noted below, and at the under-mentioned expense, provided that the Government permit the District Board to utilise the services of the Maramat Assistant Engineer on payment of half his salary and allowances.

Half the cost of an Assistant Engineer, T.A. Rs. 250+150		Per mensem. 200
1 clerk on Rs. 25+20	=	45
1 clerk on Rs. 20+20	=	40
2 peons on Rs. 8+2	=	20
Taluk Establishment.		
5 Sub Overseers T.A. Rs. Rs. 40+30	=	350
5 clerks on Rs. 20+20	=	200
5 peons on Rs. 8+2	=	50
Total Rs.		905.
Per Annum.....		10,860.

2. The District Board has been spending about Rs. 8,000/- on an average during the past 5 years on establishment charges calculated at 17½ % on the total outlay on works. The present proposal therefore involves an extra expenditure of about Rs.2860 a vear

3. This is also conditional on the Government consenting to the employment of the Maramat Assistant Engineer to supervise District Fund works debiting half his pay and Travelling allowance to the District Board. I have further considered this matter and am of opinion that if the proposal now under consideration to hand over to the District Boards the income now assigned to Local Funds General is sanctioned, the District Boards will be able to spend a considerable amount on public works and may be able to maintain their own District Board Engineer. But this would result in the Executive Engineer of Divisions not having enough work. In my opinion therefore a better plan would be to constitute the Government Executive Engineer of the District the District Board Engineer,

(55

subject in matters relating to the District Fund to the control of the District Board. The objectionable feature of the present arrangement is the fact that the District Board has now practically no control over its Public Works except to transfer funds to the Public Works Departments. What is wanted is that as far as the District Board works are concerned the Executive Engineer should carry out the works of the District Board, subject to the control of the Government in the Local Fund Department. If this can be arranged I am of opinion that nothing more need be done.

I have the honour to be,

Sir,

Your most obedient servant,

For President, District Board.

Shimoga District.

D.S.R.
